SKILLS

- Python
- HTML, CSS
- JavaScript
- React.js
- Django, Flask
- SQL, SQLite
- Git, GitHub
- Pandas, Numpy
- Web Scrapping (selenium)

LANGUAGES

- Urdu
- English

CERTIFICATIONS

- Meta – Django Web Framework (Coursera)
- IBM – Python for Data Science, AI & Development (Coursera)
- Coursera Project Network – Create Your First Web App with Python and Flask

PROFILE

I'm Eman Ijaz, a Bachelor's student in Software Engineering and a passionate Python Developer with a strong background in Django and full stack web development. I specialize in building scalable web applications and APIs, and I'm currently exploring AI, machine learning, and computer vision with OpenCV to develop smarter, data-driven solutions.

PROJECTS

Virtual AI Assistant

- Built a voice-controlled AI assistant using Python capable of executing voice commands for tasks like web browsing, answering questions via OpenAI API, telling time, and more.
- Tech Stack: Python, SpeechRecognition, pyttsx3, OpenAI API, webbrowser, datetime.
- Demonstrates skills in Python scripting, API integration, and AI-based automation.

Auto-Reply AI ChatBot

- The WhatsApp Auto-Reply Bot is a simple Python-based automation tool that reads incoming messages from WhatsApp Web and sends automatic replies. It uses GUI automation libraries to detect and respond to messages in real time.
- Tech Stack: Python, PyAutoGUI, Pyperclip, Keyboard, OpenAI API

Full Stack Restaurant

- Built a full-featured restaurant web app with user authentication, dynamic menus, and online reservation capabilities. Users can view menus, place orders, and book tables through a responsive UI. Admin panel allows staff to manage orders, menu items, and bookings.
- Tech Stack: Django, Python, HTML, CSS, JavaScript, Bootstrap/Tailwind CSS, SQLite

EDUCATION

Bachelor of Science in Software Engineering 2024 - 2028
Computer Science | University of Sargodha
